Local Contact:

Lightning Safety #2 – 30 sec.

If you wait until a thunderstorm is upon you before you seek shelter, you may be too late to be safe. You'll put yourself and your companions at risk of a lightning strike. Postpone outdoor activities. Use your battery-powered NOAA Weather Radio All Hazards for updates from local officials. When you hear thunder, find shelter immediately. Unplug computers and turn off air conditioners. Don't touch appliances, plumbing fixtures or use a land line phone. For more information, go to ReadyWisconsin.wi.gov.

LOCAL TAG: A message _____.

ReadyWisconsin is an initiative of Wisconsin Emergency Management and the Wisconsin Citizen Corps Council.
